ABOUT

Seasoned **Digital Operations & Web Support** professional with over 7 years of experience across **backend web development, CMS management, hospitality microsites, CRM and loyalty platforms**. Experienced in bridging technical development, digital operations and web support to deliver reliable, customer-facing digital solutions. Strong in troubleshooting, stakeholder coordination, website maintenance and time-sensitive operational support.

WORK EXPERIENCE

Digital Operations & Web Support Executive

CPR Vision Management Pte Ltd · Dec 2019 – July 2026 · Singapore, Central Region

- **Digital Operations & Microsite Management:** Supported digital operations across hospitality, CRM, loyalty and marketing platforms for regional and global brands.
- **Hospitality Websites:** Managed and maintained multiple hotel dining, restaurant and guest-facing microsites.
- **Content & Campaign Support:** Coordinated website updates, campaign content changes and operational requests across customer-facing digital platforms.
- **Adobe Experience Manager (AEM):** Handled content updates, troubleshooting and ongoing maintenance support.
- **Cross-functional Coordination:** Worked closely with project, creative and operational teams to support digital campaign execution and website maintenance.
- **Operational Troubleshooting:** Investigated and resolved website issues to maintain smooth performance and minimise service disruption.
- **SLA & Request Coordination:** Managed maintenance requests, project support tasks and time-sensitive deliverables within expected SLA requirements.
- **CRM & Loyalty Support:** Contributed to CRM and loyalty platform support through backend coordination, database handling and digital operations maintenance.
- **Documentation:** Maintained workflow references and operational documentation to support continuity and internal coordination.
- **Customer Experience Platforms:** Supported hospitality platforms focused on customer engagement, guest satisfaction and survey experiences.

IT Developer

SGshop Malaysia · Feb 2019 – Dec 2019 · Nusajaya, Johor, Malaysia

- **Backend Development:** Contributed to platform development, maintenance and systems engineering.
- **IT Solutions:** Supported deployment and implementation of solutions within an e-commerce environment.
- **System Maintenance:** Assisted with ongoing application and platform support.

IT Trainee

SGshop Malaysia · Sep 2018 – Feb 2019 · Nusajaya, Johor, Malaysia

- **IT Support:** Assisted with routine IT support and system administration tasks.
- **Development:** Gained hands-on experience in full-stack development fundamentals and project workflows.
- **Internal Processes:** Supported day-to-day IT operations and learned practical software development processes.
